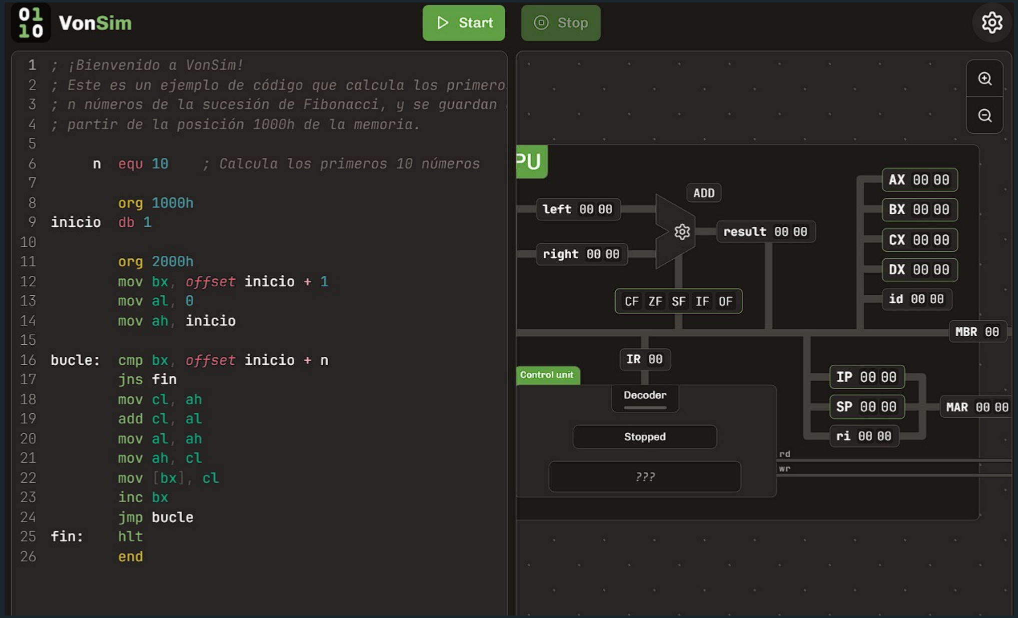
VonSim

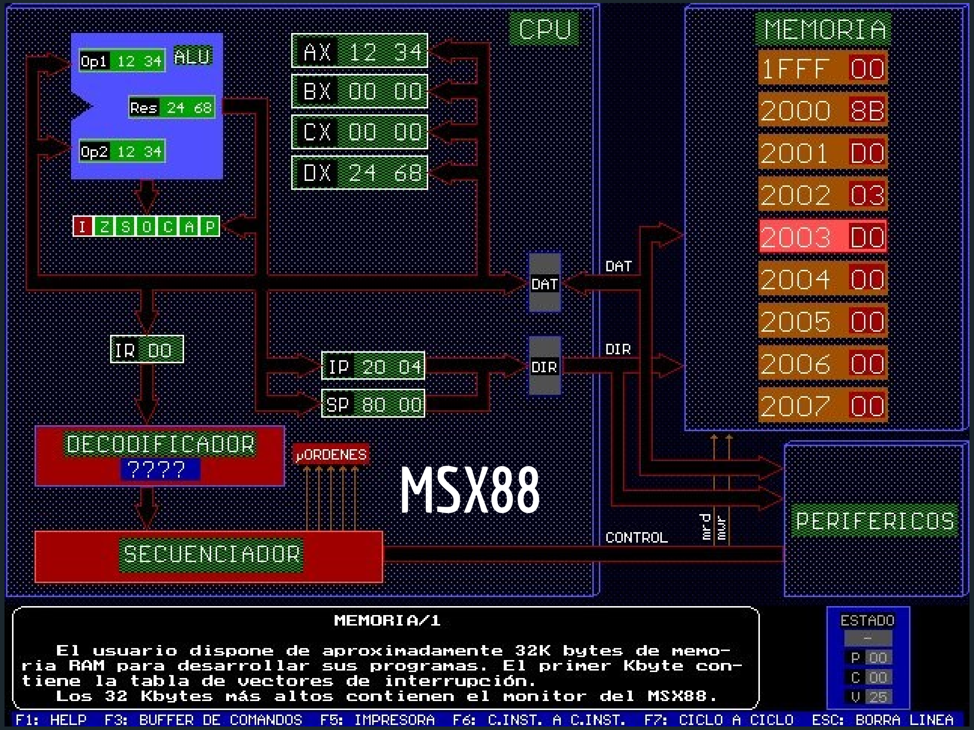
Educational Simulator for Assembly



https://vonsim.github.io/

Context

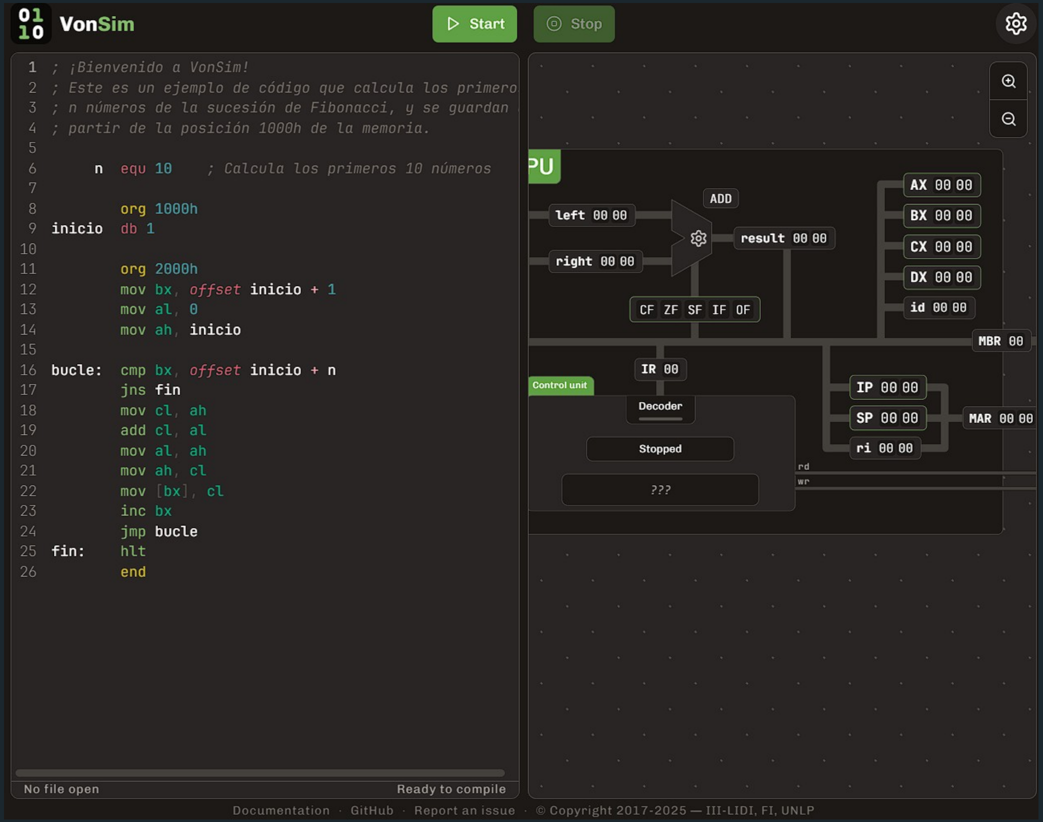
- Informatics School
  - Universidad Nacional de La Plata
- Courses that teach Assembly
  - Computer Organization
  - Computer Architecture
- ~1500 students per year
- Previously: **MSX88** simulator
  - VonSim 1: 2017
  - VonSim 2: 2023



01
10 VonSim

https://vonsim.github.io/

- Web App
- IDE
  - Compile & Ex
  - Debug
- Simplified Architecture
- Component **Visualization**
  - I/O Devices
- Integrated Examples
- Mobile/Tablet mode



IDE

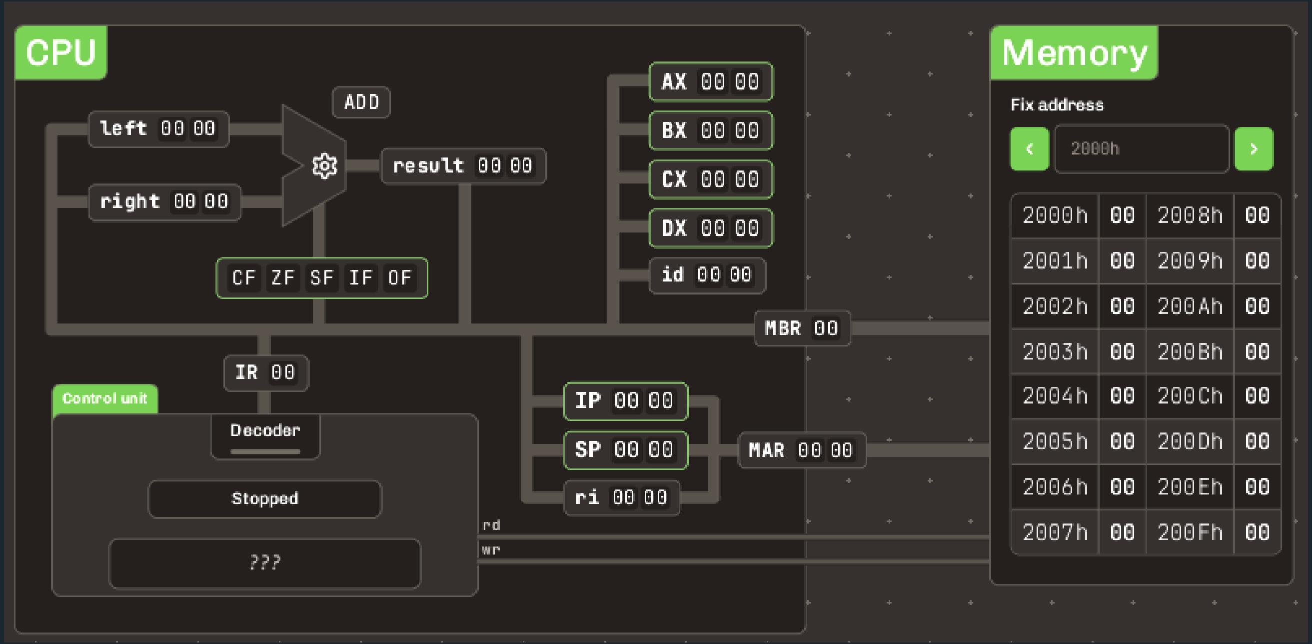
- Syntax Coloring
- Continuous compilation
- Detailed error messages with visual feedback

```
looop:   cmp bx, offset start + n
         jns finish
         mov cl, ah
         add cl, al
         mov al, ah
         mov ah, cl
         mov [bx], cl
         inc bx
         jmp loop
finish:  hlt
         end
```

Label "LOOP" has not been defined.

CPU/Memory

- 8 half registers - 8 bits each: AL, AH, BL, BH, Cl, CH, DL, DH
  - Can be addressed as 4 16-bit registers: AX, BX, CX, DX
  - Low/high parts
- Especial state registers
- ALU
- Memory: 16838 bytes
  - 16 bit addresses



- **ORG ‹ADDRESS›**
  - Explicit starting address for code/data
- **END**
- **MOV dest, source**
  - Data transfers
- **OP dest[, source]**
  - OP = ADD | SUB | OR | AND | XOR | NEG | NOR
- **hlt**
  - Stop execution

Compute C = A + B

```
; DATA
org 1000h
A db 5
B db 3
C db ? ; no init

;2000h: default address
; to start executing code
org 2000h
mov al, A
add al, B
mov C, al ; C = A + B
hlt
end
```

Device I/O

- Keyboard & Screen
- PIC
  - → Timer
  - → F10 Button
  - → HANDSHAKE
- PIO
  - → LEDs & Switches
  - → Printer
- HANDSHAKE
  - → Printer

What is VonSim?

VonSim is a tool designed for teaching and learning computer architecture and organization. It consists of an environment for developing programs in assembly language and a simulator for them.

It is based on the Intel 8088 processor and features:

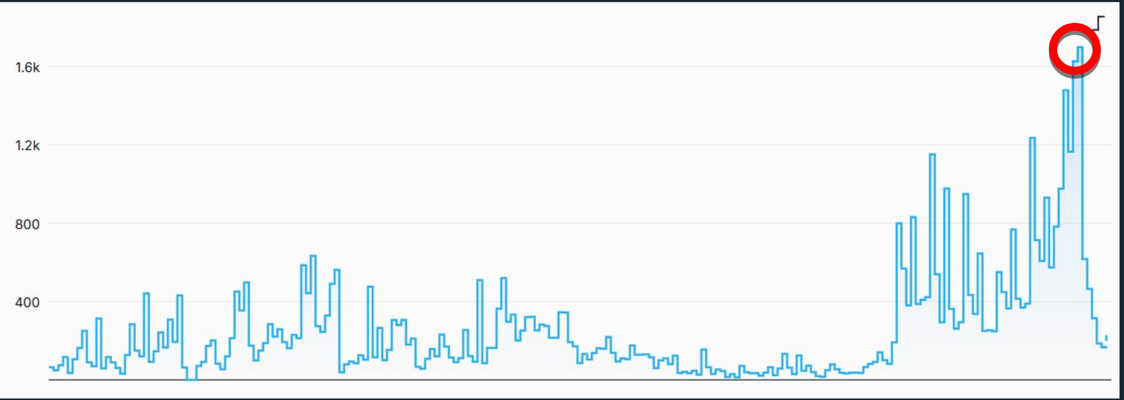
- four 16-bit general-purpose registers;
- a main memory of 32 kB;

https://vonsim.github.io/en/

VonSim 2 Usage statistics

- Via OneDollarStats (2025/03 - 2025/10)

Visits per day



Devices

Devices Browser OS **Device**

Device type	Visits
Desktop	27.1k
Mobile	6.29k
Tablet	174
Unknown	35
